LUNCH

food options

FOOD LABELS: Click on each circle, and type in your child's favorite foods. Print out these circles on another magnet sheet. Or you can print out the blank template, and add the food names in permanent marker. Cut out the circles using a 1.5" circle punch, or with scissors, and use them, along with the menu planning chart, to plan your child's lunches. Print as many sheets of circles as you need!
